## **OUR LINE OF DEFENSE**

It is a moment of tense nerves ready to slip out of the trench at the word of command—and at the enemy. Our men on the firing line are physically fit for military service because only about one man out of five was chosen to endure the hardships of this fearful war. But we must not be content with 20 per cent. in physical health of our American youth. We cannot afford to lose four men out of five because of physical unfitness. Such weaknesses can be cared. Many times the kidneys are to blame.

If the kidneys are clogged with toxic knees in the morning on arising, your medicine is for sale by all dealers. joints seem "rusty," you may have rheu-matic pains, pain in the back, stiff neck, headaches, sometimes swollen feet, or neuralgic pains-all due to uric acid or toxic poisons stored in the blood and which should be swept out.

Then procure at your nearest drug store Anuric (double strength). The cost is 60 cents. This An-u-ric drives the uric acid out. Drink plenty of pure water, take Anuric three times a day

## CLIP IHIS AND PIN ON WIFE'S DRESSER

Cincinnati man tells how to shrivel up corns or calluses so they ifft off with fingers.

Ouch ! ?! ?!! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

## LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemcns into a bottle containing three ounces of orehard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. marvelous to smoothen rough, red hands. ------

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you

should. Belching, sour stomach and bloating are symptoms of indigestion and are relieved by taking Chamber lain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberain's Tablets cause a gentle movement of the bowels, relieving the constipated condition. Chamberlain's Tablets are also most excellent for bil iousness. Sold everywhere at 25c

## WHIRLING RAPIDS IN JAPAN

Waters of the Kozu River Afford Attraction for Voyagers Who Are Seeking Excitement.

Most voyagers, says a writer in the Wide World Magazine, are anxious to avoid rapids, whirlpools, and swift currents. Yet in Japan passengers are regularly taken through rapids of the Kozu river just for the sake of the excitement the journey affords.

For some distance this river flows between steep banks beautifully clothed in verdure. Being cooped up in a narrow defile, the river gains considerably in speed, and presently it plunges over a series of rocks, forming innumerable rapids, whirlpools, and eddies.

To take a boat through these troubled waters demands the utmost skill and nerve. Some enterprising native beatmen, however, conceived the idea of running a boat through the rapids as an attraction to sensation-leving foreign visitors. Several times a day, provided passengers are forthcoming, the little boat braves the rapids. The navigators are very skillful, as they need to be, for the small craft is dashed this way and that, while the spray and I don't hesitate to recommend it." of the troubled waters is sent flying over the occupants. To say the least, this boat journey provides an exciting thrill, and the boatmen reap quite a good harvest.

Moy Hee, proprietor of a chop sucy restaurant in St. Paul, recently returned from a seven months' sojourn in China, relates an exchange, where he visited his aged mother and 275,000 relatives, all members of the great Moy family, at Sun Ning in the province of Canton. While he was there Moy's son was married and Moy entertained 235 guests at a big hotel there for three days, spending \$5,000 for entertainment. From inquiries made at Sun Ning, Moy learned that his 275,000 relatives were not properly provided with educational facili-While many of them were wealthy, a large number could not afford the \$12 a year a child for education. Mey has undertaken to raise the sum of \$400,000 to build schools and employ teachers in that vicinity. isitor remarked about the good looks of Alaska women, and the fact that they dress with taste, says the Anchorage Times. Of course, our northern women are pretty. Why shouldn't they be? They enjoy absolutely pure air, drink water as fresh as that from a mountain spring, get plenty of exercise, and take an active part in community affairs. They are cosmopolitan the same as the men are, and well read and well informed. As every one knows, there is nothing so beautiful as good health. It is a joy even to see an Alaskan girl swinging along with a free, firm tread instead of the mincing step of her sister in the states, who gives the impression she is stepping on eggs. The Alaska girl looks you squarely in the eye, gives you a frank handclasp and is sure of herself at all times.

## ENDORSES TANLAC.

Suffered Torture with Rheamatism-Gains 10 rounds and Troubles Disappear.

Robert Schultze of 818 West Poplar street, San Antonio, Texas, who has H. J. MEYER, M. D. been a resident of that city for more than fifty years and a contractor and builder there for twenty-five years, made a remarkable statement regarding his experience with Tanlac, re-

"About two years ago," said Mr. Schultze, "rheumatism got hold of me and I lost weight and all the energy I ever had seemed to leave me. I suffered torture with the rheumatism, especially in my shoulders and knee joints, and I couldn't work an hour without my shoulders giving completely out. I a man can be and as nothing seemed

had become irritable and unstrung as to do me any good I had about gotten Calls answered promptly day or night to the place where I didn't know which way to turn for relief. "Finally, after seeing the fine re-

sults of Tanlac in the case of some of my relatives, I began using it myself and I am entirely free from all pain and symptoms of the rheumatism, and I am glad to say my irritable, grouchy feelings are gone, too. I have gained all of ten pounds and this strikes me as being mighty fine for one of my age. I have as much energy and vim as I ever had and can work all day. Altogether, I'm simply feeling fine and you may know if Taniac hadn't done me good I wouldn't be talking for it. But it has done the work for me

Tanlac is sold in Hondo by W. H. Windrow, in Devine by Lion Drug Store, in D'Hanis by Louis Carle, in LaCoste by Dickey Drug Co., and in Dunlay by Louis A. Haby.

## WHERE WILD FOWL BREED

Yukon River and the Lakes of That Hyperborean Region Favored Spot of Many Birds.

Until the acquisition of Alaska by the United States it was a wonder where certain wild fowl went when they migrated from temperate climes on the approach of summer as well as snowbirds and other small species of the feathered tribe. It was afterward found, observes a writer in the Kansas City Journal, that their habitat in summer was the waters of Alaska-the Yukon river and the lakes of that hyperborean region.

People wonder where the wild fowl come from. They see the sandhill crane, the wild goose heron and other fowl every spring and fall pursue their unwearied way, but like the wind, they do not know whence they come or whither they go.

Up on Golovine bay, on the north side of Norton sound, is the breeding place of these fowls. All the birds in creation, see try to breed. Geese, ducks, swans and thousands upon thousands of sandhill cranes are swarming there all the time. They lay their eggs in the bluestem grass in the lowlands.

Myriads of robins and swallows ere there, as well as millions of magnificent grouse, wearing red combs and feather moccasins. This grouse turns as white as snow in winter.

You can kill dozens of teal ducks or grouse as fat as butter balls in a few moments. The wild fowl and bears live on salmon berries and huckleberries, with which the hills are literally covered.

If you "feel blue," "no account," lazy, you need a good cleaning out. HERBINE is the right thing for that purpose. It stimulates the liver, tones up the stomach and purifies the bowels. Price 50c. Sold by W. H. Windrow.

#### Origin of a Postal Custom. The steamship Oregon was lost off

Fire Island on March 14, 1886, states the New York Sun. She was rammed by a constwise schooner, remaining afloat for half an hour, a time which made it possible to save every person aboard. When her mail was fished up and delivered the pieces were stamped with a statement that they had been in the wreck, the first instance of a practice which is now employed by direction of the International Postal union. The credit for this simple device is believed to be due to Edward M. Morgan, at that time in a subordinate position in the New York post office, who foresaw that a few miutes' work with a rubber stamp would forestall an infinitude of com-

When you feel lazy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 50c. Sold by W. H. Windrow.

## Sinai of the Dakotas.

For Precinct Chairman

The Black Hills have always been something more than earthly mountains. The aura of savage superstition hangs round them still, states a writer. There is something rather unearthly even to the most cynical civilized intellect in the shimmering blue beauty of the canyons, in the mad tangle of fantastically carved cliffs and gullies of the Bad Lands, in the sudden furious mountain storms. The Black Hills are the home of the red gods. One great butte the Indians pointed out as the platform whence their great spirit spoke to his people—the Sinai of the Dakotas.

# Meat Must Be Sold

Fresh meat is perishable. It must be sold within about two weeks for whatever it will bring.

A certain amount of beef is frozen for foreign shipment, but domestic markets demand fresh, chilied, unfrozen beef.

Swift & Company cannot increase prices by withholding meat, because it will not keep fresh and salable for more than a few days after it reaches the market.

Swift & Company cannot tell at the time of purchasing cattle, what price fresh meat will bring when put on sale. If between purchase and sale, market conditions change, the price of meat must also change.

The Food Administration limits our profit to 9 per cent on capital invested in the meat departments. This is about 2 cents per dollar of sales. No profit is guaranteed, and the risk of loss is not eliminated.

As a matter of fact, meat is often sold at a loss because of the need of selling it before it spoils.

# Are the Packers Profiteers?

# Plain Facts About the Meat Business

The Federal Trade Commission in its recent report on war profits, stated that the five large meat packers have been profiteering and that they have a monopoly of the market.

These conclusions, if fair and just, are matters of serious concern not only to those engaged in the meat packing business but to every other citizen of our country.

The figures given on profits are misleading and the statement that the packers have a monopoly is unsupported by the facts.

The packers mentioned in the report stand ready to prove their profits reasonable and necessary

The meat business is one of the largest American industries. Any citizen who would familiarize himself with the details must be prepared for large totals.

The report states that the aggregate profits of four large packers were \$140,000,000 for the three war years.

This sum is compared with \$19,000000 as the average annual profit for the three years before the war, making it appear that the war profits was \$121,000,000 greater than the pre-war profit.

This compares a three-year profit with a one-year profit --- a manifestly unfair method of comparison. It is not only misleading, but the Federal Trade Commission apparently has made a mistake in the figures themselves.

The aggregate three-year profit of \$240,000,000 was earned on sales of over four and a half billion dollars. It means about three cents on each dollar of sales --- or a mere fraction of a cent per pound of product

Packers' profits are a negligible factor in prices of live stock and meats. No other large business is conducted upon such small margins of profit.

Furthermore---and this is very important---only a small portion of this profit has been paid in dividends. The balance has been put back into the business. It had to be, as you realize when you consider the problems the packers have had to solve---and solve quickly ---during these war years.

To conduct this business in war times, with higher costs and the necessity of paying two or three times the former prices for live stock, has required the use of two or three times the ordinary amount of working capital. The additional profit makes only a fair return on

this, and as has been stated, the larger portion of the profits earned has been used to finance huge stocks of goods and to provide additions and improvements made necessary by the enormous demands of our army and navy and the Allies.

If you are a business man you will appreciate the significance of these facts. If you are un equainted with business, talk this matter over with some business acquaintance---with your banker, say---and ask him to compare profits of the packing industry with those of any other large industry at the present time.

No evidence is offered by the Federal Trade Commission in support of the statement that the large packers have a monopoly. The Commission's own report shows the large number and importance of other packers.

The packers mentioned in the statement stand ready to prove to any fair minded person that they are in keen competition with each other, and that they have no power to manipulate prices.

If this were not true they would not dare to make this positive state-

Furthermore, government figures show that the five large packers mentioned in the report account for only about one-third of the meat business of the country.

They wish it were possible to interest you in the details of their business. Of how, for instance, they can sell dressed beef for less than the cost of the live animal, owing to utilization of by-products, and of the wonderful story of the methods of distribution throughout this broad land, as well as in other countries.

The five packers mentioned feel justified in co-operating with each other to the extent of together presenting this public statement.

They have been able to do a big job for your government in its time of need; they have met all war time demands promptly and completely and they are willing to trust their case to the fairmindedness of the American people with the facts before them.
